

Main axle: rear, front and gear orientation

Corrected R3 • 54 mm frame posts • 186 mm axle • identical for 16x / 32x / 64x

CHECK THE ASSEMBLY

Long side of the middle hole:
REAR (97 mm).

Fix gear 10 at this middle hole
with one M3x16 screw + nut.

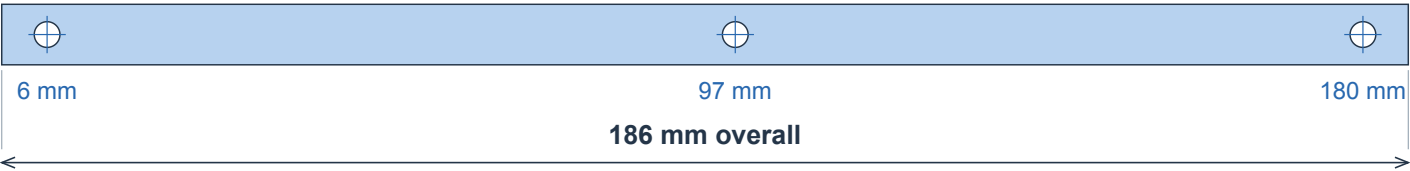

Frames, drum wheels and
fasteners omitted for clarity.

Parts are in their assembled
positions. Small gaps are
intentional; do not clamp tight.

Side view along the screw holes.
Dashed blue: hidden square axle.

Lay the bare axle on the outline
below to identify its three holes.

BARE AXLE 03 • 8 mm square • Ø3.4 mm cross-holes

Hole labels are measured from the REAR end. Both end holes are 6 mm from their nearest end.

This bar must measure 50 mm

Print A4 landscape at 100% / Actual size.
Disable Fit / Shrink. Check the bar first.
